

# Sound Effects Checklist

## Sound effects are easy & fun for children to imitate.

**Therapy** Level. Highlight the sound effects your child says/approximates regularly and independently (a good rule of thumb is that you've heard them use it at least three times without a prompt). Note the month and year beside the sound effect. This will help us track their vocabulary growth over time.

### **Animal Sounds**

Bear growling	Pig oinking	
Bee buzzing	Rooster crowing	
Bird tweeting	Seal barking (arp)	
Cat meowing	Sheep baaing
